Newhall Proposes Yet another 1150 Housing Units in the Middle of a Drought! Hearing Tuesday March 24th, 6 PM Your Presence Needed

Rancho Pico Jr. High School
26250 W. Valencia Blvd.
Westridge, 91381

Last week the [Los Angeles Times ran a story](#) about NASA reports indicating that California may have as little as one year of water left. Now Newhall Land is proposing yet another unsustainable project built in the

floodplain of the Santa Clara River. They have already received approval for their Landmark and Mission tracts- app. 6000 units total (Mission will be built in an old oil field - see picture above), both of which are currently being reviewed by the California Supreme Court. But that hasn't stopped this company, now owned by an out of state corporation (Lennar) and hedge funds. They have already put out new Notices of Preparation for Homestead (app. 3400 housing units and Entrada south 1250 housing units). Where will the water come from? How will existing residents deal with all the additional cutbacks needed to accommodate these new houses? If you have concerns, this is the time to voice them. Please attend this hearing. More information on this proposal and where to write letters can be accessed [here](#).

Meet us at the Fair - the Earth/Arbor Day Fair, that is!

April 11th 10 AM to 4PM, Central Park, 27150 Bouquet Canyon Road, 91350

Scope will have an information booth there, and we are looking for volunteers to help with set up and manning the booth. Is a great event and fun day. Hope you will join us. More information [here](#).
